PROFESSIONAL EXPERIENCE

MRSoft Solutions
Software Engineer
10/2024 – 10/2026 | Hyderabad, India

- Contributed to production applications across restaurant, e-commerce, digital signage, and admin platforms.
- Developed responsive, reusable UIs using React.js, TypeScript, JavaScript, Redux, Bootstrap, and Sass.
- Integrated REST APIs and worked with Node.js/Express.js, MySQL, MongoDB, and PostgreSQL.
- Developed business modules including RBAC, subscriptions, pricing, vendor management, ticketing, coupons, media, playlists, and delivery management.
- Managed Git/GitHub workflows and frontend deployments as part of daily development.
- Improved SEO score from 14% to 44% through frontend and SEO optimization.
- Used AI tools to support development, problem-solving, and application implementation.

NowIT Services Ltd
Mobile Application Developer
07/2024 – 09/2024 | Vijayawada, India

- Developed a React Native mobile application with multi-functional search and real-time image synchronization.
- Implemented client, product, and billing management features.
- Ensured seamless integration with backend systems and data synchronization using MySQL.
- Participated in requirements discussions, team meetings, and application testing to deliver quality features.

PROJECTS

Fyndyne
Restaurant Management Platform

- Revamped the admin panel UI and improved usability across existing modules using React.js and TypeScript.
- Added subscription, pricing, roles, permissions, and access-object management features.
- Built delivery and kitchen order management functionality, including order assignment, pickup, and real-time tracking.

ACHIEVEMENTS

- Recognized for UI design and project contributions across multiple products.
- Created digital marketing and product creatives, including banners, pamphlets, and product images.
- Received appreciation from the CEO and team for contributing to a new website that was well received for its design and usability.
- Contributed to the Fyndyne POC focused on customer acquisition and onboarding.

COURSES

MERN Full Stack and Mobile Application Development
BRN InfoTech
Hyderabad, India

CERTIFICATES

- Full Stack Programming Intern - BRN InfoTech

LANGUAGES

English, Hindi, Telugu, Kannada

- Improved website responsiveness, SEO, and sitemap implementation across desktop and mobile devices.
